

RESEARCH SCIENTIST SUPERVISOR 2 (VARIOUS SPECIALTIES)

Exam Code: 8PB08

Department: State of California

Exam Type: Servicewide, Open

Final Filing Date: Continuous

CLASSIFICATION DETAILS

Research Scientist Supervisor 2 (Various Specialties) – \$8,728.00-\$10,872.00 per month.

View the [classification specification](#) for the Research Scientist Supervisor 2 classification.

APPLICATION INSTRUCTIONS

Final Filing Date: Continuous

Who Should Apply:

Applicants who meet the minimum qualifications as stated on this bulletin may apply for and take this examination.

Once you have taken this examination, you may not retake it for twelve (12) months.

How to Apply:

The **Research Scientist Supervisor 2** includes the following specialties (chemical, epidemiology/biostatistics, food and drug, microbiological, physical/engineering, social/behavioral, and veterinary sciences). On the minimum qualification page, you **must** provide information for all related specialties you possess applicable experience/education in.

The link to connect to the Training and Experience Evaluation is located in the “Taking the Exam” section.

Special Testing Arrangements:

If you require special testing arrangements due to a verified disability or medical condition, please contact:

California Department of Human Resources

MINIMUM QUALIFICATIONS

All applicants must meet the education and/or experience requirements as stated on this exam bulletin to be accepted into the examination. Part-time or full-time jobs, regardless of whether paid or volunteer positions, and inside or outside California state service will count toward experience.

Research Scientist Supervisor 2

Either I

Experience: Three years of experience in the California state service performing scientific research duties comparable to those of a Research Scientist Supervisor I in the [stated specialty](#) or a [closely related field](#). and

Education: Possession of a doctoral degree in the [stated specialty](#) or a [closely related field](#) or a degree of Doctor of Medicine.

Or II

Experience: Two years of experience in the California state service performing scientific research duties comparable to those of a Research Scientist IV in the [stated specialty](#) or in a [closely related field](#). (Possession of a recognized professional Board certification in the [stated specialty](#) or possession of a master's degree in Public Health or preventive medicine may be substituted for one year of the required experience.) and

Education: Possession of a doctoral degree in the [stated specialty](#) or a [closely related field](#) or a degree of Doctor of Medicine.

Or III

Experience: Five years of progressively responsible research experience in the [stated](#)

Bulletin Date: 7/24/18

[specialty](#) or a [closely related field](#). This experience must have included major responsibility for the design, conduct, and analysis of a large or highly complex and difficult research, and experience in the development, planning, and operation of multidisciplinary, complex, and difficult research program involving coordination of several groups of disciplines, recruitment and training of personnel, budgeting and accounting of funds, and preparation of major reports and scientific publications. At least three years of this experience must be at a level of responsibility equivalent to that of a Research Scientist Supervisor I. and

Education: Possession of a doctoral degree in the [stated specialty](#) or in a [closely related field](#).

Or IV

Experience: Five years of progressively responsible professional research experience in a field of medical specialization relevant to the [stated specialty](#) or a [closely related field](#). This experience must have included major responsibility for the design, conduct, and analysis of complex research, or responsibility for the administration and coordination of large, complex multidisciplinary, or multi-institutional research programs. Two years of approved residency in a medical specialty relevant to the class title may be substituted for one year of the required experience. At least three years of this experience must be at a level of responsibility equivalent to that of a Research Scientist Supervisor I. and

Education: Possession of the degree of Doctor of Medicine.

POSITION DESCRIPTION

Research Scientist Supervisor 2

Under broad administrative direction, the Research Scientist Supervisor II is responsible for the supervision of Research Scientists I, II, III and IV and Research Scientist Supervisors I. Incumbents serve as second-level supervisors responsible for a moderate group of scientific and nonscientific staff composed of supervisors and nonsupervisory, typically totaling nine to fifteen professional State and/or contract employees. Programs with high visibility requiring unique scientific expertise in which the incumbent has independent science-based decision-making responsibilities on a statewide level may supervise fewer personnel. Incumbents provide administrative guidance and leadership in planning, organizing, and directing difficult and complex major original scientific research studies or public health investigations that have broad statewide scientific scope, high sensitivity, and policy impact; make original, independent decisions on complex scientific problems using scientific theories and principles on association and risk and then develop hypothesis on causes and also test these hypotheses; conceive, plan, and conduct scientific research work of large scope on a statewide or national basis, that has extreme difficulty and complexity in unexplored areas of public health. The incumbent's work involves high levels of

uncertainty and a balancing of conflicting interest of extreme intensity. The results of their applied research are used in public health prevention and control programs. Incumbents use their scientific expertise to plan, direct, and execute major professional public health research studies. Provide evaluations and scientific recommendations made by the incumbent as those of a scientific expert; and direct the analysis of all relevant, available, scientific, technical, medical, and other information from sources within and outside the organization, and direct the integration of this information into the decision-making process. Incumbents direct the development of proposed scientific research studies to evaluate new public health strategies if relevant information is not available; consult with department management and others in areas appropriate to their qualifications and participate in the development of public health policy; provide scientific technical expertise in a science area appropriate to their educational qualifications and provide consultation to departmental management and others as requested; direct the publication or presentation of scientific research or investigations conducted on a statewide basis to state public health experts and the community; and perform other related work.

EXAMINATION SCOPE

This examination consists of the following components:

Training and Experience Evaluation – Weighted 100% of the final score.

The examination will consist solely of a **Training and Experience Evaluation**. To obtain a position on the eligible list, you must provide education and the number of months of experience in the applicable parenthetical(s) specialty, and receive a minimum score of 70% on the exam. Applicants will receive their score upon completion of the Training and Experience Evaluation process.

In addition to evaluating applicants' relative knowledge, skills, and ability, as demonstrated by quality and breadth of education and/or experience, emphasis in each exam component will be measuring competitively, relative job demands, each applicant's:

Research Scientist Supervisor 2 (Various Specialties)-Knowledge of:

1. Current scientific research literature and trends applicable to the scientific research area
2. Principles and procedures of scientific research planning, design, methodology and analysis
3. Methods of preparation of scientific research reports
4. Scientific statistical methods and procedures
5. Data processing techniques
6. Bibliographic survey or previous related scientific research techniques
7. Determination and qualification of variables and mechanization of compilation of

scientific data.

Research Scientist Supervisor 2 (Various Specialties)-Ability to:

1. Evaluate the adequacy of proposed scientific research designs and techniques
2. Think independently and creatively.
3. Establish and maintain cooperative relations with professional staff and with officials of Federal, State, local, university and private research organizations
4. Communicate effectively.
5. Prepare scientific articles for publication.
6. Prepare scientific reports.
7. Provide persuasive and skilled leadership to other staff in scientific research, principles and methods.
8. Apply professional scientific knowledge and administrative ability to resolve a variety of situations.
9. Analyze situations accurately and take effective action.
10. Apply expert scientific knowledge in their stated area of specialty.
11. Work independently and develop scientific guidelines and technical procedures.
12. Make recommendations to management on scientific health policy issues.
13. Serve as a direct supervisor and team leader for complex scientific projects.
14. Supervise and direct a work unit of professional classes
15. Make health-based scientific decisions within the project scope that may affect department policies.
16. Participate as a team member of public health research or scientific investigation projects.
17. Make independent decisions in a very limited area of a scientific field.
18. Provide information to higher-level scientists in support of decisions on scientific research.
19. Interpret scientific findings and present to higher-level scientists.
20. Apply established guidelines and scientific techniques.
21. Serve as team leaders on small scientific projects.
22. Make independent, difficult decisions in a specific scientific field.
23. Plan, organize, and direct scientific research studies of a highly developed scientific scope and complexity.
24. Serve as a team leader for complex public health research or scientific investigation projects.
25. Serve as a consultant to other public health research scientists.
26. Make health-based scientific decisions within the project scope.
27. Direct and have charge of public health programs or components, which are of major sensitivity and complexity.
28. Make operation planning decisions including budget for staff and related

resources.

29. Use scientific expertise to plan and direct major public health research studies.
30. Apply expert knowledge in their stated area of specialty.
31. Serve as a spokesperson in a scientific area appropriate to the specialty.
32. Participate in the development of public health policy.

ELIGIBLE LIST INFORMATION

A separate servicewide, open eligible list for the Research Scientist Supervisor 2 classification will be established for each of the following specialties: (chemical, epidemiology/biostatistics, food and drug, microbiological, physical/engineering, social/behavioral, and veterinary sciences). The list(s) you are placed on are related to the experience provided in the minimum qualifications portion of the exam.

State of California (all State of California departments, statewide)

The names of successful competitors will be merged onto the eligible list in order of final score regardless of exam date. Eligibility expires **twelve (12) months** after it is established. Applicants must then retake the examination to reestablish eligibility.

Veterans' Preference will be granted for this examination. In accordance with Government Codes 18973.1 and 18973.5, whenever any veteran, or widow or widower of a veteran achieves a passing score on an open examination, he or she shall be ranked in the top rank of the resulting eligible list.

Veterans status is verified by the California Department of Human Resources (CalHR). Information on this program and the Veterans' Preference Application (Std. 1093) is available [online](#). Additional information on veteran benefits is available at the Department of Veterans Affairs.

Career Credits **will not** be added to the final score for this exam, because it does not meet the requirements to qualify for Career Credits.

PREPARING FOR THE EXAMINATION

Here is a list of suggested resources to have available prior to taking the exam.

Employment History: Employment dates, job titles, organization names and addresses, names of supervisors or persons who can verify your job responsibilities, and phone numbers of persons listed above.

Education: School names and addresses, degrees earned, dates attended, courses taken (verifiable on a transcript), persons or office who can verify education, and phone

numbers of persons or offices listed above.

TAKING THE EXAMINATION

When completing the minimum qualifications page, you must fill in all applicable experience for each specialty, (i.e. chemical, epidemiology/biostatistics, food and drug, microbiological, physical/engineering, social/behavioral, and veterinary sciences), that you wish to apply for. Once you have taken the exam and receive results, you will not be allowed to add any additional specialty or retake the exam for 12 months. Click on the link to take the examination for the [RESEARCH SCIENTIST SUPERVISOR 2](#) classification.

TESTING DEPARTMENTS

State of California (all State of California departments)

CONTACT INFORMATION

California Department of Human Resources
CalCareer Service Center
1810 16th Street
Sacramento, CA 95814
Phone: (866) 844-8671
Email: CalCareer@CalHR.CA.GOV

California Relay Service: 7-1-1 (TTY and voice)

TTY is a Telecommunications Device for the Deaf, and is reachable only from phones equipped with a TTY Device.

EQUAL OPPORTUNITY EMPLOYER

The State of California is an equal opportunity employer to all, regardless of age, ancestry, color, disability (mental and physical), exercising the right of family care and medical leave, gender, gender expression, gender identity, genetic information, marital status, medical condition, military or veteran status, national origin, political affiliation, race, religious creed, sex (includes pregnancy, childbirth, breastfeeding, and related medical conditions), and sexual orientation.

DRUG-FREE STATEMENT

It is an objective of the State of California to achieve a drug-free State work place. Any applicant for State employment will be expected to behave in accordance with this objective, because the use of illegal drugs is inconsistent with the law of the State, the rules governing civil service, and the special trust placed in public servants.

GENERAL INFORMATION

Examination and/or Employment Application (STD 678) forms are available at the California Department of Human Resources, local offices of the Employment Development Department, and through your [CalCareer Account](#).

If you meet the requirements stated on this examination bulletin, you may take this examination, which is competitive. Possession of the entrance requirements does not assure a place on the eligible list. Your performance in the examination described in this bulletin will be rated against a predetermined job-related rating, and all applicants who pass will be ranked according to their score.

The California Department of Human Resources (CalHR) reserves the right to revise the examination plan to better meet the needs of the service, if the circumstances under which this examination was planned change. Such revision will be in accordance with civil service laws and rules and all applicants will be notified.

General Qualifications: Applicants must possess essential personal qualifications including integrity, initiative, dependability, good judgement, the ability to work cooperatively with others, and a state of health consistent with the ability to perform the assigned duties of the class. A medical examination may be required. In open examinations, investigation may be made of employment records and personal history and fingerprinting may be required.

Eligible Lists: Eligible lists established by competitive examination, regardless of date, must be used in the following order: 1) sub-divisional promotional, 2) departmental promotional, 3) multi-departmental promotional, 4) servicewide promotional, 5) departmental open, 6) open. When there are two lists of the same kind, the older must be used first. Eligible lists will expire in one to four years unless otherwise stated on the bulletin.

High School Equivalence: Equivalence to completion of the 12th grade may be demonstrated in any one of the following ways: 1) passing the General Education Development (GED) Test; 2) completion of 12 semester units of college-level work; 3) certification from the State Department of Education, a local school board, or high school authorities that the competitor is considered to have education equivalent to graduation from high school; or 4) for clerical and accounting classes, substitution of business college work in place of high school on a year-for-year basis.
